## Full Stack Web Developer

### Professional Summary

As a passionate and driven Full Stack Web Developer with a strong foundation in Python and Django, I am a fresher eager to apply my skills in both front-end and back-end development. I have hands-on experience building web applications using technologies such as React, JavaScript, CSS, HTML, and MySQL. My focus is on writing clean, efficient code while developing scalable, user-friendly, and secure solutions. I am committed to continuous learning and adapting to emerging technologies. Looking forward to contributing to innovative projects in a collaborative, fast-paced environment and further enhancing my technical expertise. I thrive on solving real-world problems through code and enjoy transforming complex requirements into intuitive digital experiences. My goal is to grow as a developer while delivering impactful software that adds value to users and businesses alike.

### Education

**Master's Degree in Mathematics - 6.520 (CGPA)**

Periyar University -2024

**Bachelor's Degree in Mathematics -6.734 (CGPA)**

Bharathiar University - 2021

**Higher Secondary Course Certificate - 76%**

Adharsh Vidhyalaya - 2018

### Skills

**Technical skills:**

- **Front End:** HTML 5, CSS 3, JavaScript, React Js, Bootstrap-5.
- **Back End:** Python, Django Framework, Rest API.
- **Databases:** MySQL.
- **Version Control:** Git, GitHub.

**Soft skills:** Communication, Web Content Management, Problem-Solving, Analytical Skills, Collaboration, Teamwork.

### Projects

**1.Portfolio Website(React Js, Bootstrap ):** [Link](#)

Built a responsive, user-friendly portfolio with React.js to showcase projects, skills, and achievements.

**2.Notes Application (Frontend: React, Bootstrap, CSS/ Backend:Python, Django, REST API/ Authentication: JWT (JSON Web Token)) :** [Link](#)

This Notes App is a full-stack web application that enables users to securely **create, view, edit, and delete** personal notes. The **frontend** is developed using **React** and **styled** with **Bootstrap**, ensuring a responsive and modern user interface. **Users can categorize** their notes and **filter them by category for better organization**. All note data is managed through a **REST API backend**, with **secure JWT-based authentication to protect user information**. The app provides real-time feedback for actions like editing or deleting notes, enhancing the user experience. Overall, this project demonstrates practical implementation of **CRUD operations, authentication, and category filtering in a user-friendly environment**.

**3.Ecommerce Website(React Js, Bootstrap, Python, Django, Bootstrap, MySQL):** [Link](#)

This project is a Flipkart-inspired e-commerce web application that allows users to browse, search, and purchase products online. It features, product listings, shopping cart functionality, and order management. The application is designed to provide a seamless and user-friendly online shopping experience.

### Certifications

**Diplomo in Computer Application(DCA)**

*CSC, 2021*

**Python Certification**

*Besant Technologies, 2024*

**Full Stack Web Development with Python and Django**

*Udemy, 2025*

**Web Development with React Js Certification**

*Udemy, 2025*

**NM-AU-TNcpl Learnathon Certificate**

*conducted by GUVI, Naan Mudhalvan and Anna University-2024*

### Hobbies

Enjoy playing basketball as a way to stay active, improve teamwork skills, and develop strategic thinking.
